SIR,

With reference to G.O. No. 13699-707
F. 7344-96
of the 5th June 1897, I have the honor to state that four of the five medical students therein sanctioned, belong to the Carnatic branch and the fifth to the Mysore branch. The former completed their term of three years on the 11th November 1900, and the latter will complete it on the 5th July 1901. The Superintendent of the Indigenous Hospital now brings to notice that he was not able to commence Anatomy, one of the subjects prescribed for the students until recently owing to the students being given leave from the 1st September

Yours

up to 1st December 1900 owing to the prevalence of plague in the city and that it was not possible to finish this and other subjects within the time allowed, and that consequently he may be permitted to retain the students till the end of October 1901. Copy of his letter No. 44 of the 27th January 1901 is herein enclosed. I request that sanction of Government may be obtained for the proposal.

2. If the extension of the term be sanctioned, the extra ... required from the District Funds will be Rs 285-15-8 (after deducting their scholarships for the months they were on leave without allowances) as may be seen from the following statement:-

Dated 27th January 1901.

Enclosure No. 2.

Sir,

With reference to your Canarese Yadi No. 1734 D/13-1-1901, I have the honor to state that out of 5 students of the Mysore District attached to the Indigenous Hospital, 4 are belonging to the Carnatic branch and one is belonging to the Mani branch. The students of the Carnatic branch have completed their term of 3 years on the 11th November 1900 as per Government Proceedings No. 13699-707 / L.7344-96 D/ 25th June 1897. The students

of

of the Mani branch completes his 3 years on 5th July 1901. All these students had 3 months leave from 1st September 1900 without pay on account of Plague in the Mysore City. As these students have not drawn their pay from 1st September to 11th November 1900 which being the balance left out of 3 years term allowed to them by Government, why should they not be allowed to continue the period of these two months and eleven days to complete the term of 3 years? In case of this extension being allowed to them the students of the Carnatic branch will complete their 3 years on 11th February 1901 and the student of the Mani branch on 5th October 1901.

Further I beg to state, that they ought to have finished Anatomy in the 2nd year with other subjects prescribed to them, but this was not done so, in that year, on account of my having been employed on Plague duty. In addition to the Canarese subjects prescribed to them for the 3rd year Anatomy was

also

also commenced from 1st December 1900 it is not possible for them to go through all the subjects both Anatomy and other Hindu books within the limited time they possess, as mentioned above. Therefore I request that you will be pleased to recommend to Government that they may be allowed a further extension of their scholarships till the end of October 1901 to complete their course of final examination.

In conclusion, I solicit that you will be good enough to order them to draw their scholarships from 1st December 1900 i.e from the date they have joined their duty.

I have the honor to be,
Sir
Your most obedient Servant
